## Weekly Wisdom

January 10 – January 14, 2011

### Courage

In our daily lives we meet obstacles that seem so great we wonder what's the use of going on. We are inclined to give up, to blame our bad luck, and to look pessimistically on the world. On such occasions we should recognize the fact that life was, is, and always will be full of obstacles. We should use these experiences to gain more and more courage so that, as we evolve, we will have an abundance stored up.

When we recognize that this universe is governed by Nature's Immutable Laws and that nothing happens by chance, that each difficulty met with has its own purpose in the Great Plan then we cease to rebel against the great scheme of things. Through our struggles in this world of unharnessed Nature and endless difficulties, we gain experience and wisdom. Thus we evolve to higher and higher planes of existence until we attain our destiny as part of the *One*.

### Haha!

(Thanks for the jokes, RBL!)

Doctors voted on the hospital administration's proposal as follows:  
The Allergist voted to scratch it.  
The Dermatologists preferred no rash moves.  
The Gastroenterologists had a gut feeling about it.  
The Neurologists thought it had a lot of nerve.  
The ophthalmologists considered the idea shortsighted.  
The Pathologists yelled: Over my dead body!  
The Pediatricians said: Grow Up!  
The Orthopedists had a bone to pick with it.  
The Proctologists said: We are in arrears.  
The Psychiatrists thought it was madness.  
The Radiologists could see right through it.  
The Plastic Surgeons said: This puts a whole new face on the matter.  
The Podiatrists thought it was a big step forward.  
The Urologists felt the scheme would not hold water.  
The Cardiologist did not have the heart to say no.  
AND THE HMOs KILLED IT, ANYWAY.

Wow! Sara Baila Lederman and Neil Roeckel are the sudoku stars of the week. Great Job!

### ***A Chiropractic Miracle Story...***

*“Dear Dr. Stein, I would like to give you my best wishes for a wonderful new year! I would also like to take this opportunity to express my sincere appreciation; and give you my personal heartfelt thanks for your miracle healing hands. I walked into your office approximately 3 or 4 years ago using a walker and in great pain!! Since my visit to your office, I have never looked back and to this date have not had the slightest discomfort. Also, you didn’t charge me for the consultation and adjustment...*

*This is more than a miracle story. May you be blessed in 2011 and may you and your family receive the best that life has to give us. This is the perfect story. It doesn’t get any better. Thank you again! “*

*Sincerely,  
H.J.*
